Thank you for meeting with me and Sidrah Khan on September 23, 2017.

Lon, thank you for sharing your wealth of knowledge and information with us during our first visit at your DRC location, and how EPA can assist in the capacity of community liaison moving forward. We'll be visiting your location again in the coming week and will check in with you before our visit to see if there are any pertinent updates. Do you prefer a phone call, e-mail, or both?

Thanks,

Christine Cherrett
